PROFESSIONAL SUMMARY

IT professional with a Cum Laude degree in Information Technology and specialized internship experience in enterprise software packaging and deployment. Successfully packaged and deployed 50+ Windows applications using Patch My PC and Intune, while also developing web applications with modern frameworks like React.js and PHP Laravel. A detail-oriented problem-solver with a strong foundation in IT operations, quality assurance, and technical documentation. Ready to contribute, collaborate, and grow.

SKILLS

IT Operations & Deployment

- Software Packaging and Deployment, PowerShell Scripting, ServiceNow, Patch My PC, IntuneWin, Advanced Installer

Web Development

- **Frontend:** React.js, JavaScript, HTML5, CSS3, AngularJS, Bootstrap, MaterializeCSS
- **Backend:** PHP, Java, PHP Laravel
- **Databases:** MySQL Workbench, HeidiSQL, Firebase Firestore
- **Version Control:** Git, GitHub
- **Methodologies:** SDLC, Agile (Scrum and Kanban)
- **Wireframe & Design:** Figma, Canva, Draw.io, Lucidchart

Other Skills

- Advanced AI Prompting
- Microsoft 365 Suite (SharePoint, Word, PowerPoint, Excel)

Soft Skills

- Proactive Worker, Willingness to Learn, Detail-Oriented, Collaborative, Express Gratitude, Good Interpersonal Communication, Growth Mindset

EXPERIENCE

IT Governance & Operations Intern

Feb 2026 - Jun 2026

Henkel Asia Pacific Services Centre

- Performed 50 software packaging and deployment of line-of-business (LOB) Windows applications using Patch My PC.
- Collaborated with the IT team during daily standup meetings to provide status updates, identify blockers, align priorities for software deployment tasks, troubleshoot issues, resolve deployment problems, and perform testing.
- Conducted 60 application testing and validation to ensure successful installation and functionality on the Company Portal.
- Developed 15 basic PowerShell scripts to support IntuneWin application packaging and deployment.
- Completed foundational training in Advanced Installer and applied knowledge to support application packaging and deployment workflows.
- Added Intune notes on 400+ Patch My PC deployments.

EDUCATION

University of Santo Tomas (UST) - Manila, Metro Manila

Aug 2022 - Jun 2026

Bachelor of Science in Information Technology

- Cumulative GWA: 1.672 - Cum Laude
- Relevant Coursework: Information Management, Software Engineering, Data Structures and Algorithms, Human-Computer Interaction, Computer Security and Information Assurance

De La Salle - Lipa (DLSL) - Lipa City, Province of Batangas

Aug 2020 - Aug 2022

Senior High School - Science, Technology, Engineering, and Mathematics

- Graduated with High Honors

CERTIFICATIONS, ACHIEVEMENTS, AND SEMINARS ATTENDED

- DevOps Foundations: DevSecOps (2018), LinkedIn Learning - Apr 16, 2026
- General Cybersecurity Awareness Training - English - Apr 14, 2026
- ITIL Process Training: Incident Management & Problem Management - Apr 7, 2026
- Gen AI Foundations from Henkel - Feb 19, 2026
- PHILNITS Passer (IT Passport Exam) - Oct 26, 2025
- Code Red: Unraveling the Frontlines of Network Security, Cisco Networking Academy Gateway - Nov 14, 2024
- CCNA: Switching, Routing, and Wireless Essentials - Jun 3, 2024

PROJECTS

Quizze: An AI-driven Web App for Personalized Online Learning

Jun 2025 - Nov 2025

React.js, Firebase Firestore, Node.js, Express.js, Hostinger (Hosting), Web Sockets (Socket.io), LlamA 3.3 70B

Role: Project Manager, UI/UX Design, Backend Development, System Documentation

- Managed a 4-member Agile team to plan and build the platform, leading UI/UX design, creating 100+ system diagrams including use-case, activity, and ERD diagrams, designing 200+ test cases, and assisting with VPS deployment through hostinger.

Order Processing System and Attendance Monitoring for Paramdam Café

Feb 2025 - Jun 2025

HTML, Bootstrap CSS, JavaScript, PHP, MySQL Database, Hostinger (Hosting)

Role: UI/UX Design, Backend Development, System Documentation

- Development lifecycle from front-end to back-end, designed 10+ system diagrams, executed 50 test cases, and deployed the live system on Hostinger using HTML, Bootstrap, JavaScript, PHP, and MySQL.

CICSelect: Voting System

Nov 2025 - Dec 2025

HTML, Bootstrap, PHP Laravel Framework, MySQL Database, InfinityFree (Hosting)

Role: UI/UX Design, Backend Development, System Documentation

- developed a secure online voting platform using PHP Laravel and MySQL, implemented user authentication and vote validation logic, designed an intuitive UI with Bootstrap, and deployed the system on InfinityFree for testing and demonstration.

Summit - To-Do List and Calendar Mobile App

Apr 2026 - May 2026

Flutter, Dart, Firestore Database (Firebase)

Role: UI/UX Design, Backend Development, System Documentation

- Managed a 4-member team, built an android mobile application using Flutter and Dart, integrated Firestore for real-time data synchronization, and designed an intuitive UI that allows users to manage tasks and events seamlessly across devices.

ProjectMIND - Learning Management System

May 2025 - Jun 2025

ReactJS, Express.js, Node.js, MySQL Database

Role: UI/UX Design, Backend Development

- Developed a learning management system using ReactJS for the front-end and Express.js with Node.js for the back-end, designed a relational MySQL database to manage users, courses, and enrollments, and created a responsive interface tailored for Cupang Elementary School students.

PixelPop: Inventory System

Nov 2024 - Dec 2024

AngularJS, ASP.NET Framework, MySQL Database

Role: UI/UX Design, Backend Development

- Built an inventory management system using AngularJS for the front-end and ASP.NET Framework for the back-end, designed a MySQL database to track products, stock levels, and transactions, and implemented CRUD operations to streamline inventory tracking for small businesses.

Analist: To-Do List Mobile App

Nov 2024 - Dec 2024

Kotlin, Firebase Database (Firebase)

Role: UI/UX Design, Backend Development

- Built an Android to-do list mobile application using Kotlin, integrated Firebase Firestore for real-time task synchronization, and designed an intuitive UI for creating, organizing, and tracking daily tasks.

Elysian: Resort Reservation System

May 2024 - Jun 2024

HTML, CSS (Bootstrap), PHP

Role: UI/UX Design, Backend Development

- Developed a web-based resort reservation system that streamlines booking operations, enabling users to reserve accommodations, manage schedules, and track availability in real time.
